

Request for Quote

Scope of Work Requested

The Town of Cedar Highlands is seeking experienced operators to provide snow plowing and road sanding services during this upcoming winter. Approximately 6.8 miles of community roads needs to be serviced.

We are requesting an hourly rate for each piece of equipment to be used. A multi-year contract is negotiable.

Typical Equipment Requirements

Road Grader

Loader

One Ton Truck to hold Boss 3-Yard Sander (Sander Provided)

Preferred Equipment would be a Commercial-grade Snow Blower

All Equipment to be chained for Winter Driving

Time Requirements

Services can start with the first significant winter snow storm, and run thru as late as May. A typical snow storm takes 4-6 hours of plowing time. Major storms can take longer. Sanding of roads can take place in-between storms, as road conditions call for.

Nature of Work to be Done

Snow plowing is critical to the Cedar Highlands community, to guarantee year-round access. Callouts for service are generally made when there is 6 inches of snow on the roadways, at higher elevations. As a result, these specific vendor requirements are critical:

Vendor needs to monitor weather reports, and anticipate the needs for service.

Vendor must be on call, and be able to respond immediately for snow removal and sanding services. This can include early morning callouts, any day of the week.

Equipment should be stored in or near the community. A staging area is provided.

Vendor arranges for delivery and loading of sanding materials.

Vendor should make every effort to minimize road damage during plowing. Leaving approximately one inch of snow is acceptable.

Vendors should have experience in providing the services described above. Vendors are strongly encouraged to pre-visit site.

Insurance, naming Town as additional insured, is required.

See attached map for service area.

RFQ Schedule

1. RFQ sent to vendors- Monday, August 26th
2. Questions and Comments- August 26th –September 6th
3. Completed vendor quotes due COB Monday, September 9th.
4. Contract awarded by September 26th.
5. Services begin first qualified snowfall.
